PROFESSIONAL SUMMARY

ICT graduate (Diploma in Application Development, Walter Sisulu University, 2026) with hands on experience building Oracle APEX, Java, Python, and Visual Basic .NET applications. Delivered a multi table relational database system (RentEase) from schema design through working UI and reports, and built responsive web pages in HTML/CSS. Targeting junior developer and custom software roles building institutional and business management systems.

CORE SKILLS

Java • Python • Visual Basic .NET • Oracle APEX • PL/SQL • MySQL • Database Design & Normalisation • HTML • CSS • System Testing & Debugging • SDLC • Requirements Gathering • UI/Form Design • Microsoft Word/PowerPoint

PROJECT EXPERIENCE

RentEase :Rental Property Management System

Oracle APEX | Team Project

- Designed and built a 4 entity relational database (tenants, landlords, agents, properties), eliminating manual spreadsheet tracking for property/tenant records the same institutional record-keeping problem behind systems like student information or skills development portals.
- Built forms, reports, and workflows in Oracle APEX, enabling end to end data entry and retrieval without direct SQL access for end users.
- Tested and debugged application logic across core modules as part of a 4 person team, reducing reported workflow errors before handover.

Gym-Tone :Gym Management System

Team Project

- Built member sign up and check-in UI components, improving usability for non technical staff.
- Tested core system features across multiple functional areas, identifying and resolving defects before release.

Gugu's Kitchen :Food Service Website

HTML/CSS | Team Project

- Built responsive HTML/CSS page layouts across the full site, ensuring consistent display across desktop and mobile screens.
- Restructured site content and navigation, improving page organisation and user flow for visitors.

CERTIFICATIONS

- Certificate of Competence in Coding and Programming ,Walter Sisulu University x Samsung (Dec 2025)
- Certificate in Full Stack Development, 32 credits ,FNB App Academy, ITVarsity (Jul 2025)
- Solutions Architecture Job Simulation ,AWS via Forage (May 2025)
- Advanced Software Engineering Job Simulation ,Walmart Global Tech via Forage (May 2025)

EDUCATION

Diploma in ICT: Application Development

Walter Sisulu University, 2025

Average: 65%

Matric (Grade 12)

Njejeza Secondary School, 2022
